

Reham Abuarqoub

Kitchener, ON | Rehamabuarqoub94@gmail.com | 226-808-2916 | [LinkedIn](#) | [GitHub](#)

Computer Science professional with over four years of experience in data analysis, automation, and system development.

Summary of Qualifications

- Currently completing a postgraduate certificate in Applied AI & Machine Learning at Conestoga College with hands-on experience in SQL, data analysis, and report development.
- Skilled in building data-driven solutions, validating data quality, and supporting automated reporting processes using SQL, Python, and BI tools.
- Strong analytical thinker with excellent problem-solving, documentation, and collaboration skills, able to translate technical details for business and clinical users.

Technical Skills

- **Languages & Tools:** Python, C#, VB.NET, SQL, JavaScript, HTML/CSS, Bootstrap, jQuery
- **AI/ML & Computer Vision:** OpenCV, NumPy, Pandas, Scikit-learn, TensorFlow/Keras, PyTorch
- **Software Development:** OOP, API development, debugging, unit testing, version control (Git)
- **Databases:** MySQL, SQL Server, database design, schema modeling, stored procedures
- **UI Development:** Web UI (HTML/CSS/JS, Bootstrap), dashboards (Power BI, Tableau)
- **Research & Prototyping:** Proof-of-concept systems, data pipelines, model evaluation
- **Tools:** Jupyter, VS Code, Visual Studio, Postman, Fiddler, Wireshark

Work Experience

Data Analyst

Oct 2020 – Dec 2024

Nord Anglia Education – Amman, Jordan

- Built and maintained dashboards, data pipelines, and automated reports using SQL and Python.
- Validated datasets, performed quality checks, and supported system updates with IT teams.
- Designed documentation for data workflows, system changes, and BI processes.
- Collaborated with cross-functional staff, presented findings, and supported decision-making.

Web Developer

Jan 2019 – Jan 2020

Quality Software Solutions – Amman, Jordan

- Developed and customized applications using C#, VB.NET, SQL, OOP, and Visual Studio.
- Designed database structures, optimized queries, and implemented secure authentication.
- Built UI components using HTML, CSS, JS, and Bootstrap.
- Performed debugging, testing, and bug-fixing to improve system reliability.
- Worked with users to resolve POS issues and improve system workflows.

Education

Applied A.I. & Machine Learning Graduate Certificate May 2025 – Expected Dec 2025
Conestoga College, Waterloo, ON

- Focus on data analysis, predictive modeling, and automation using Python, Power BI, and Scikit-learn.
- **Sustainable AI Project:** Built an energy-efficient prompt engineering estimator using FastAPI, Random Forest predictions, and Streamlit UI.
- **DQN Pong Project:** Implemented OpenCV preprocessing (crop, grayscale, resize), frame stacking, CNN, and reinforcement learning pipeline.
- **AI Career Mentor (Capstone):** Resume parsing, skill-gap detection, and learning roadmap generation using supervised ML and Python.
- **Health Analytics:** Applied ML to real health datasets to support evidence-based decision-making
- **Housing Regression:** Built multivariate and polynomial regression models evaluated using R^2 , MAE, and MAPE.

Bachelor of Computer Engineering

Sep 2012 – Jul 2017

University of Jordan

Projects & Contributions

- Built interactive dashboards in Power BI to visualize usage trends and performance metrics.
- Created and managed SQL databases to store and organize structured data efficiently.
- Presented data-driven recommendations that supported leadership decisions and strategic planning.
